UNILUBE

SYSTEMS, Ltd.

**Fast-Lube Design
Specialists**

Value Added

All Unilube products are designed to maximize speed; safety, and productivity. All service related items are within reach of the technician. The snap together modular construction method utilized, allows a complete two-bay installation in under 8 hours with no specialized labor required for construction. Speed of installation and maximum performance are attributes that deliver extra value to our customers.

Quality Commitment

As a specialty equipment leader of the quick lube industry, we are the company of choice in providing safe, reliable, easily assembled and long lasting products.

Our products improve working conditions, efficiency and deliver long term value. We back our quality with a warranty.
